This report provides information on property crime for the previous month for your community. These statistics are collected through a city mapping system. Please be aware that the boundaries for your Community and the boundaries for the mapping system may not be identical and therefore some addresses in the Community Association Report may have been unintentionally included or excluded.

To understand your Community Association Report, it may be helpful to know that the statistics only reflect incidents reported to the Saskatoon Police Service, and not necessarily the total number of incidents, as many go unreported. To protect the identity of the victims, incidents are reported by the block in which they occurred and not by the specific address. A break and enter to a residence, includes a break and enter to an attached garage. A break and enter to other, includes a break and enter to an unattached garage or shed. Theft under, includes the offense of shoplifting from a business. Mischief includes the offenses of property damage and graffiti.
